

New Value-Added Service from mc² Check out the new mc² Electricity Usage Report

mc² is launching a new Electricity Usage Report as an added benefit to the customers we serve. This monthly email explains your electricity use in easy-to-read charts. You will receive your first report in the coming weeks to coincide with your ComEd billing cycle.

Benefits of the mc² Electricity Usage Report

- Learn how the amount of electricity you use compares to previous years.
- See how weather could affect your usage.
- Compare your current month's usage with the previous six months.
- Receive the monthly report automatically. No sign-up required.*

What's in the Electricity Usage Report?

The monthly report allows you to conveniently view your electricity usage – past and present. Knowledge is power! The more you know about how much electricity you use, the more you can manage costs. The report will include the following information, as seen in the sample below:

1. Your account information and current ComEd billing cycle.
2. The percent change for your electricity usage as compared to the previous year.
3. Your current monthly usage in kilowatt hours (kWh) and average temperature for the current billing cycle, with a comparison to the previous year (if available).
4. Six (6) months of usage data for the current and previous years (if available).

* The mc² Electricity Usage Report will not be available if your account data is blocked by ComEd. If you wish to unblock your data, contact ComEd at 1-800-334-7661.

Monthly Electricity Usage Report

JOHN DOE

Account number *****5061

Billing Cycle 11/30/2016 to 01/03/2017

where energy comes from

1

2,284 kWh

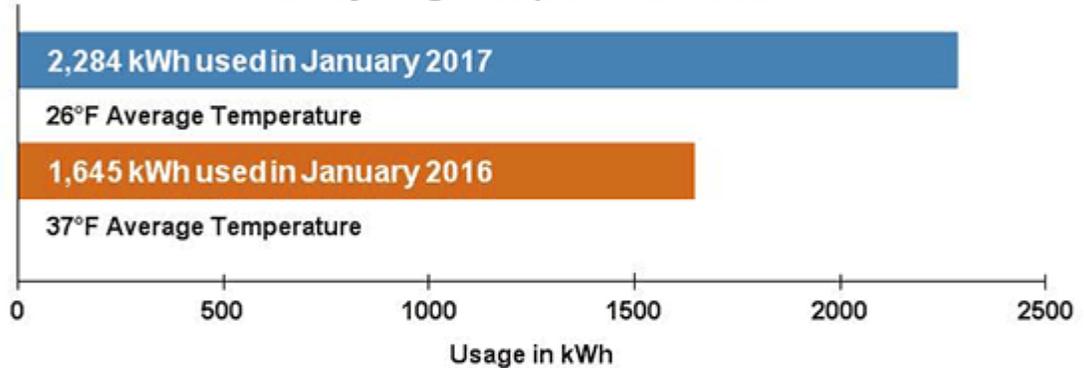

JAN 2017 billed electricity usage

2

Your electricity usage Increased 39%
compared to the same period last year

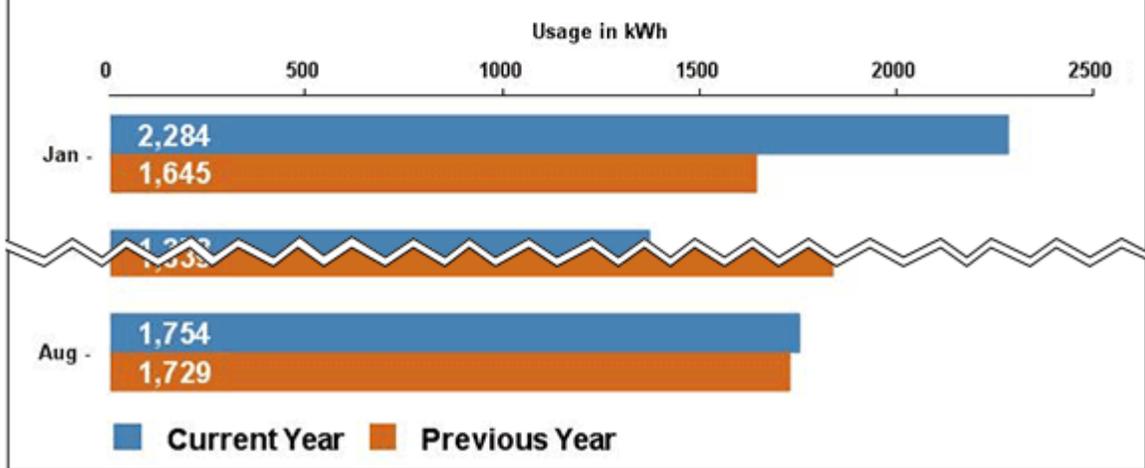

3

Monthly Usage Comparison vs Last Year

4

Previous 6 Month Usage Comparison
