Volume 1/2022

## Earth Day 2022 Green Initiative

Once again, mc<sup>2</sup> celebrated Earth Day 2022, themed “Invest In Our Planet,” with our annual green initiative. On Friday, April 22, we retired Midwest-based, wind-generated Renewable Energy Certificates (RECs) equal to 100% of the amount of energy that our entire client base consumed that day. Our client base includes all residential, commercial, educational, and governmental mc<sup>2</sup> customers in Illinois and Ohio, states in which we are a certified retail electric supplier. The RECs that we retired are in addition to existing state-mandated Renewable Portfolio Standard (RPS) requirements. The amount is equivalent to eliminating more than 3,000 metric tons of CO<sup>2</sup> from the atmosphere. mc<sup>2</sup> continuously looks for ways to support the development of renewable generation resources in the Midwest to help build a sustainable future for everyone.

---

## Pitching in at Local Parks

mc<sup>2</sup> supported Chicago's Friends of the Parks Foundation by participating in an Earth Day cleanup at Burnham Park. mc<sup>2</sup> team members met with other volunteers on Saturday, April 23, to pick up litter and debris. Local neighborhood park cleanups are a great way to preserve our green spaces, leaving cleaner communities for everyone to enjoy. It's always a good time to invest in our parks and our planet.
