Happy Earth Day!

mc² Celebrates with Annual Green Initiative

MC Squared Energy Services (mc²) celebrates Earth Day this year with their annual unique 100 percent green initiative. On Thursday April 22, mc² will retire Midwest-based Green-e® Energy certified Wind Renewable Energy Certificates (RECs) equal to 100 percent of the energy consumed that day by our customers; including all residential, commercial, educational and governmental customers served by mc² in the states of Illinois and Ohio.

On Earth Day 2021, mc² is projected to retire renewable energy certificates equivalent to eliminating over **3,000 metric tons** of CO₂ from the atmosphere. One REC represents one megawatt-hour (MWh) of electricity that has been generated from a renewable energy source. Each REC retired by mc² is backed by Green-e® Energy, a trusted global leader in energy certification.

The mc² team is always looking for ways the company can do its part in help reducing the world's carbon footprint and demonstrate our team's commitment to making the planet better for all our customers.

Below is a breakdown of the emission equivalences eliminated from mc²'s 2021 Earth Day incentive.

* Greenhouse gas emissions from Source Data - United States EPA
** CO₂ emissions from

ComEd IL Required Disclosure

MC Squared Energy Services, LLC (mc²) is not the same entity as your electric delivery company. You are not required to enroll with mc².
