

United City of Yorkville

Green Electric Aggregation Program

Electric Supply Price

The price is equal to ComEd's basic service tariff rate including the published Purchased Electricity Charge, Transmission Service Charge and Purchased Electricity Adjustment for each applicable month.

The program will start with the August 2020 ComEd meter read and continue through your August 2022 meter read.

Contact mc²

For questions regarding the Electric Aggregation Program, please contact mc² first before contacting the City.

The United City of Yorkville has selected MC Squared Energy Services, LLC (mc²) to administer its **Green Electric Aggregation Program**.

The selection of mc² ensures that the power supply cost for participating residential and small business customers will **not be greater than the ComEd basic service tariff rate** while providing the City with electricity supply and Renewable Energy Certificates; plus provide the City with a Civic Grant contribution at no increased cost to the City or its residents.

In addition, this new Green Electric Aggregation Program enables the United City of Yorkville to be designated an EPA Green Power Partner Community.

What is electric aggregation?

On August 10, 2009, Governor Quinn signed into law Public Act 096-0176, which allows municipalities to arrange for the provision of electric to residential and small commercial retail customers by alternative electric suppliers (i.e. suppliers other than ComEd). Under this law, the municipality may seek bids for the provision of aggregate electric supply services to their residents and small businesses.

Who is eligible to participate?

Eligible residential requirements: All residents located in the United City of Yorkville that are receiving electric supply service from ComEd are eligible to participate.

Eligible business requirements: All small businesses located in the United City of Yorkville that are receiving electric supply service from ComEd, with a ComEd designated annual usage of 15,000 kWh or less, are eligible to participate.

What is the electric supply price for the program?

The price will equal to the ComEd's basic service tariff rate including the Published Purchased Electricity Charge, Transmission Service Charge and Purchased Electricity Adjustment charge. This price can change month to month. A historical price from last 12 months can be found at www.mc2energyservices.com/IL/HistoricalPricing.

where energy comes from

Who is MC Squared Energy Services?

MC Squared Energy Services, LLC (mc²) is a certified, retail electric-service provider headquartered in Chicago. MC Squared Energy Services, LLC is a wholly owned subsidiary of Wolverine Holdings. For more information on the company, visit our website at www.mc2energyservices.com.

Summary of Benefits:

- Supports renewable generators.
- Supports reduction of harmful emissions.
- No rate risk; electricity supply price is equal to ComEd published rates.
- City receives designation as an EPA Green Power Partner Community.
- City will receive Civic Grant contribution.
- Residents and small businesses may opt out at any time.
- Achieves a strategic objective of the Metropolitan Mayors Caucus Greenest Region Compact.

Can you explain how enrollment is handled?

Eligible residential or small business customers will receive a letter in the mail from the City regarding the action required to participate in the program. There are two types of letters (letter type is specified on the top of your letter):

- 1) **Aggregation Notice Letter** - Customers receiving this letter will be **enrolled automatically** to receive electric supply from mc² unless they choose to opt out by following the instructions in the letter.
- 2) **Informational Content Letters** – These types of Letters are informational only. If customers do want electric supply from mc², customers can Opt In online at mc2energyservices.com/special (entering the promo code **Yorkville**) or by calling 1-833-740-0477 Monday through Friday, 8 a.m. to 5 p.m.

What will change on my electric bill if I'm enrolled?

You will continue to receive a single bill from ComEd each month. "MC Squared Energy Services" will be designated as your supplier in the "Supply" section of your ComEd bill. ComEd will continue to bill you for distribution services and taxes. Payments should still be sent to ComEd at the address provided. There is no impact to ComEd services such as Budget Billing, Peak Time Savings and/or financial assistance.

Will I receive notification of the supplier change?

ComEd will always mail a confirmation letter indicating a service change whether you switch to mc² or return to ComEd supply service.

What if I have already switched to an Alternative Retail Electricity Supplier (ARES)?

If you have already switched to an Alternative Retail Electricity Supplier (ARES), you can still opt in to the program. See above for enrollment directions. You should always check with your current provider to better understand any restrictions or policies that may apply.

Is there an early termination fee?

There is no termination fee; only obligated to pay for services rendered under the contract until your service is terminated.

Will my electric service be disrupted when I switch?

No, there will be no disruption in service. You will continue to receive the same electric service through the same transmission and distribution system currently operated by ComEd. The switch to mc² is seamless.

What happens at the end of the program term?

At the end of the term, if the City decides to end the program, all accounts served by mc² will be returned to ComEd service.
